## PROJECTS

### **DODGE & RUN** | UNITY, C#

June '20 - August '20 | Group Project

- This is a 3D endless runner Android game. It has different themes and is inspired from Subway Surfers.
- We collaborated on Unity Collab and I worked on the movements of the player along with designing different themes.

### **BREAK** | HTML, CSS, JAVASCRIPT, BOOTSTRAP

August '20 | Group Project

- Break is a startup based on Mental Health of teenagers. This is a full stack, responsive web application.
- Lead the front-end development of **Break**. I learnt many JavaScript functionalities, CSS animations and UI/UX concepts while working on it.

### **VSTREAM** | BOOTSTRAP, JAVASCRIPT, FIREBASE, NODEJS, SOCKETIO

August '20 | Group Project

- It is a platform for streaming content (a video in any format. eg: a drive link, a YouTube video or a video from your PC) live with a group of friends.
- I worked on designing the entire website, chat feature and a YouTube recommendations feature that recommends top 10 videos according to user input.

### **TECH FOR HER** | HTML, CSS, BOOTSTRAP, NODEJS

November '20 - present

- A full stack web application to empower women students and focuses on inclusion and diversification.
- It includes information about resources, hackathons and will have a community of its own.

### **SIMON GAME** | HTML, CSS, JQUERY

June '20

- This web page has a game of memory skill. The buttons create a series of tunes and requires the user to repeat the sequence. If the user succeeds, the series becomes progressively longer and more complex.
